

Avi Spa at Avillion Port Dickson

The Avi Spa at Avillion Port Dickson is dripping in 'wow' factor. This luxury spa is perched amongst rocks, coconut trees and timber overlooking one of Negeri Sembilan's most beautiful beaches, Port Dickson.

One of the few spas in Malaysia offering postcard perfect elevated views over Straits of Malacca, Avi Spa consists of sublime tropical treatment rooms set seductively atop beach side stilts.

Long revered for their therapeutic massages and relaxing exterior, their team of anatomy-trained bodyworkers now integrate Malay and Baba Nyonya rituals into all their healthy treatments - lifting this spa to an even higher vibration.

Before your treatment begins, you will have an opportunity to sit and quietly soak up the view from high among the clouds as you sip on a cup of lemongrass and orange tea.

The contemporary Peranakan inspired Avi Spa is a 6,250 square feet standalone double storey pavilion built above water and is divided into 3 venues consisting of treatment suites, relaxation areas and a lounge. The treatment space includes 7 luxury suites -- 2 couple rooms, 1 premium room and 4 standard rooms with floating verandas and baths.

The treatment suites looking over the rocks with uninterrupted views of the ocean make this somewhere that's much better to visit during the day, although night also brings an unrivalled sense of peace and tranquillity.

Treatments themselves are long

and leisurely, handled by staff who are clearly experts in their field, combining various techniques from Asian cultures with the more traditional Malay pressure-point massage.

At Avi Spa, their intention is to heal, nurture and cure. The combination of nature and pampering makes for an ultra-relaxing few hours with the various rituals on offer.

If time is a factor, the signature Massage Sampler is perfect for ironing out any kinks and knots you may have picked up on your travels.

Avi Spa is a gorgeous place to spend an afternoon being pampered in Port Dickson. It's simple but luxurious, and the treatments combined with the sea breeze leaves you feeling light and fresh.
